## Message

*Assalamu'alaikum Warahmatullahi Wabarakatuh* and greetings,

First of all, I wish to congratulate the workshop organiser particularly, the course director, Professor Dr Ida Hilmi, and the President of the Malaysian Society of Gastroenterology and Hepatology, Dr Tan Soek Siam, for organising this year's therapeutic endoscopy workshop - Endoscopy 2018 - with the theme - "Therapeutic Endoscopy: Building on Basics". This workshop has been a tradition since 1993 which was inaugurated by Professor Dato' Dr Goh Khean Lee and is part of the Faculty of Medicine and the University Malaya Medical Centre's commitment is to maintain its position as a premier medical institution.

I would like to wish a warm welcome to our international faculty, especially Professor Dr Thierry Ponchon, who will deliver the Distinguished Lecture. Dr Ponchon is currently the President of the European Society of Gastrointestinal Endoscopy and we are honoured that he has made time in his busy schedule to be part of this workshop.

I wish all of you an enjoyable and fruitful workshop.

## Message

It is with great pleasure that I welcome all of you to one of our Faculty's signature events, the Annual Workshop in Interventional GI Endoscopy. This year's theme "Therapeutic Endoscopy: Building on Basics" is a nod to the ever growing development in the world of endoscopy. For example, I find it amazing to consider that from the humble beginnings of removing small polyps, therapeutic endoscopy has evolved to enable the resection of early cancers, without the need for surgery. In keeping with this, the Workshop provides local and regional practitioners access to the latest endoscopic theories and practices delivered by top world class endoscopists for the benefit of our patients.

Congratulations to the organising committee and I wish everyone a successful Workshop. Do also take the opportunity to visit our beautiful country and savour our delicious food.

**Professor Dato' Dr Adeeba Kamarulzaman**  
Dean, Faculty of Medicine

## Message

I am proud once again that the University Malaya Medical Centre in collaboration with the Malaysian Society of Gastroenterology and Hepatology, is organising yet again an important Endoscopy Workshop, themed "Therapeutic Endoscopy: Building on Basics". I wish to congratulate the organisers of this Workshop on making this another great annual event since 1993. The University Malaya Medical Centre is committed to support such top-class events and it is our hope that this effort will continue for many years to come. I would like to welcome our distinguished guests from overseas who have made great effort to support this meeting: Hwoon-Yong Jung (Seoul, Korea), Arthur Kaffes (Sydney, Australia), Kazuo Ohtsuka (Tokyo, Japan), Nonthalee Pausawasdi (Bangkok, Thailand), Thierry Ponchon (Lyon, France), Noriya Uedo (Osaka, Japan) and Rueben Wong (Singapore).

It is my hope that this particular workshop continues to push the boundaries of endoscopic therapy and provide an important educational event for gastroenterologists, surgeons and GI nurse assistants from all over Malaysia. Once again, I wish to express my highest congratulations to the Endoscopy Unit on the achievements and initiatives made in this field.

## Message

A warm welcome to Endoscopy 2018. The Malaysian Society of Gastroenterology and Hepatology is honoured to be the co-organiser with University of Malaya, bringing to you Endoscopy 2018 from the University Malaya Medical Centre Endoscopy Unit, a World Endoscopy Organization Center of Excellence for 2008-2014 and 2015-2020.

The Organising Committee has put together an exciting three-day programme which feature sessions for GIAs, lectures on tips and tricks, live demonstrations with highlights on EUS/EMR/ESD and a teaching forum on GI motility. This year, for the first time, we have 'Malaysia Boleh' a competition for the Best Endoscopic Video from our local experts in endoscopy. Professor Dr Ida Hilmi, the course director, will be the best person to enlighten us more about this.

On behalf of MSGH, I sincerely thank all the esteemed speakers and moderators for their time and sharing their skills, the staff of UMMC, the delegates, our patients and sponsors for coming together with untiring commitment to ensure a successful Workshop for all.

Last but not least, I wish everyone a stimulating and fruitful event and for our guests from overseas, an enjoyable stay in Malaysia.

Thank you.

## Message

Welcome once again to our annual Endoscopy 2018 Workshop themed “Therapeutic Endoscopy: Building on Basics” jointly organised by the Malaysian Society of Gastroenterology and Hepatology and the University of Malaya. As always, we have the privilege of assembling a faculty comprising some of the most well-known endoscopists in the world. One of the original ‘masters’ in endoscopy, Dr Thierry Ponchon has been instrumental in endoscopy training, namely under the auspices of the European Society of Gastrointestinal Endoscopy (ESGE) and we are proud to have him deliver the distinguished lecture for the Workshop. As an exceptional all-round interventional endoscopist, Dr Arthur Kaffes was an invited faculty in 2011 and we welcome him back to the Workshop. The Japanese are pioneers in endoscopic submucosal dissection and balloon assisted enteroscopy and we are fortunate to have Dr Noriya Uedo and Dr Kazuo Ohtsuka, who are experts in these fields respectively. Likewise, it is a great pleasure to invite Dr Hwoon-Yong Jung who will demonstrate POEM and upper GI ESD. Dr Nonthalee Pausawasdi is extremely accomplished in both ERCP and EUS and is one of the key committee members of the Asian EUS Group. Last but definitely not least, Dr Rueben Wong will be conducting a highly anticipated course on GI motility for the first time in the history of our Workshop.

Although we are always excited to learn from our overseas faculty, I believe there are many home grown talents right here in Malaysia which is why we introduced the ‘Malaysia Boleh’ best endoscopic video competition in order to encourage the young endoscopists to ‘reach for the stars’, to put it dramatically.

A live workshop requires a tremendous effort and my heartfelt thanks goes to everyone involved in the organisation of this meeting. Here’s to a successful Endoscopy 2018.

**Professor Dr Ida Normiha Hilmi**  
Course Director

## Objectives and Format of Workshop

Emphasis on practical tips in therapeutic endoscopy: technique, indications limitations and pitfalls. In particular in this year's workshop we will be introducing several new sophisticated procedures which we want our participants to learn, appreciate their utility but at the same time to be critical about their application and usefulness in our daily clinical practice.

Procedures will include direct cholangioscopy, endoscopic ultrasound, enhanced imaging endoscopy, endoscopic submucosal dissection and endoscopic mucosal resection of gastric and colonic neoplasms.

## Curriculum Vitae of Faculty

**Hwoon-Yong Jung** Seoul, Korea

Professor Dr Jung graduated from Seoul National University (MD, 1988) and obtained his PhD at Hanyang University in 2005. He served as a Resident of Internal Medicine at SNUH (1989-1992) and subsequently pursued his Fellowship at Asan Medical Center (1995-1997). He has been a Professor at University of Ulsan College of Medicine, Asan Medical Center in Songpa-gu, Seoul, Korea and was a visiting scholar at UC, San Diego (2002-2004). He has many publications on ESD of gastric and esophageal neoplasms as well as on gastric cancer and GI motility.

**Arthur Kaffes** Sydney, Australia

Associate Professor Dr Arthur J Kaffes is a gastroenterologist and therapeutic endoscopist at the Royal Prince Alfred and Prince of Wales Hospital in Sydney and is a clinical associate professor at the University of Sydney Clinical School. After completing gastroenterology training in Sydney Australia, he underwent two years of therapeutic endoscopy training at Westmead Hospital Sydney and endoscopy fellowship with Dr D N Reddy in Hyderabad, India. Dr Kaffes has a keen interest in pancreatobiliary endoscopy, balloon enteroscopy and quality colonoscopy and has published and presented papers and abstracts in all these areas in both local forums and overseas meetings. This has led to some new techniques and devices for metallic stenting in benign disease, side-port EUS FNA, and ERCP in altered anatomy. The first balloon enteroscopy procedure in Australia was performed by Dr Kaffes and he now has the largest experience in Australia. His current research interests include polyp characterization with zoom colonoscopy and further technologies to improve polyp detection. Dr Kaffes hosts one of the largest national live meetings in the area of endoscopy annually at Royal Prince Alfred Hospital where these techniques are often presented and discussed.

**Kazuo Ohtsuka** Tokyo, Japan

Professor Dr Ohtsuka is a consultant physician and GI therapeutic endoscopist. He graduated from Niigata University School of Medicine in 1988 and completed his residency in Internal Medicine at Akita Red Cross Hospital. He went on to obtain his doctoral degree from Niigata University Graduate School in 1995, following which he went to the University of Southern California for research fellowship culminating in him being given the 18<sup>th</sup> Annual American College of Rheumatology Senior Rheumatology Scholar Award. After returning to Japan, he worked as a faculty at the Showa University Northern Yokohama Hospital for 11 years. During this period of time, he participated in the development of capsule endoscopy and single-balloon enteroscopy (SBE). He also popularised the single-operator method for SBE. Since 2012, he has been working in Tokyo Medical and Dental University, focusing on endoscopic diagnosis and treatment of inflammatory bowel disease and other small bowel diseases.

## Curriculum Vitae of Faculty

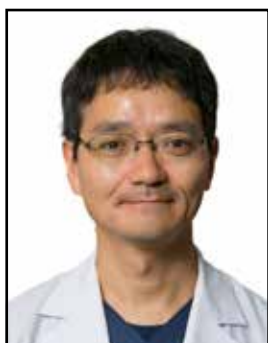

**Nonthalee Pausawasdi** Bangkok, Thailand

Dr Nonthalee Pausawasdi received her M.D. degree from Thailand in 1996 and pursued her postdoctoral research training and residency in internal medicine, GI fellowship, and advanced endoscopy fellowship training at the University of Michigan during 1997 to 2008. Her interest has been in the area of ERCP and EUS, particularly the utility of EUS in the evaluation of pancreatic cystic neoplasms and EUS guided tissue acquisition. She is currently an Associate Professor at the Faculty of Medicine Siriraj Hospital, Mahidol University, Thailand. She has also served as the Secretary General of the Gastroenterological Association of Thailand and a board member of the Thai Association of Gastrointestinal Endoscopy.

**Thierry Ponchon** Lyon, France

Professor Dr Thierry Ponchon is a specialist in hepatogastroenterology at Edouard Hospital, Lyon. He received his medical training at Lyon Medical University and is member of the board of the National French Society of Gastroenterology and the European Society of Gastrointestinal Endoscopy (ESGE), among others. He was Co-Editor-in-Chief of the journal Endoscopy. His main focus is on digestive endoscopy, esophageal carcinoma, colorectal cancer screening and biliopancreatic diseases.

**Noriya Uedo** Osaka, Japan

Dr Uedo is a clinical investigator and endoscopist at the Osaka International Cancer Institute. He graduated from the School of Medicine, Kagoshima University in 1992. Dr Uedo started his training in Gastrointestinal Oncology and Endoscopy in the Osaka Medical Center for Cancer and Cardiovascular Diseases in 1994. His current research interests are application of new endoscopic imaging and therapeutic technique to management of gastrointestinal cancers and establishment of efficient training of advanced endoscopic procedures. He is a councilor of Japanese Gastroenterological Endoscopic Society, Japanese Society of Gastroenterology, Japanese Gastric Cancer Association and Japanese Esophageal Society, and an international member of American Society of Gastrointestinal Endoscopy. He has education experience as a visiting professor in Malmoe University Hospital, Lund University, Sweden; 301 PLA General Hospital, China and Fukuoka University Chikushi Hospital, Japan.

## Professor Dr Thierry Ponchon

(Edouard Herriot Hospital, Lyon, France)

University of Malaya & Malaysian Society of Gastroenterology and Hepatology Distinguished Lecturer 2018

*Citation by **Professor Dr Ida Normiha Hilmi**  
(Senior Consultant Gastroenterologist, University of Malaya)*

Thierry Ponchon graduated in 1984 from Lyon University. He went on almost immediately to train in digestive diseases and endoscopy in 1985 and completed his PhD in Lyon Science University in 1992. He was awarded his Professorship in Medicine and Hepatogastroenterology at the University Hospital Herriot in 1995 and was the Head of the Gastroenterology Unit at Edouard Herriot Hospital, Lyon from 2007 to 2017.

Dr Ponchon is a key opinion leader throughout Europe and has held many key positions such as Past President of Societe Francaise' Endoscopie Digestive (SFED) and is an active committee member of World Endoscopy Organization (WEO-OMED). He is currently the President of European Society of Gastrointestinal Endoscopy (ESGE). As part of his continuing dedication to Endoscopy Training, he will be organising the inaugural ESGE Days Congress 2018 to be held in Budapest. Dr Ponchon has numerous publications and is currently Editor-in-Chief of Endoscopy International Open and was Co-Editor-in-Chief of Endoscopy.

I was fortunate enough to have seen Dr Ponchon in action for the first time in 2001 during a live demonstration in St. Marks Hospital during my first year of training as a gastroenterologist. Out of all the faculty members, he certainly stood out through his unique teaching style which was both educational and entertaining. Therefore, given his vast experience and expertise, I can think of no one better to present the Malaysian Society of Gastroenterology & Hepatology and the University of Malaya Distinguished Lecture for this year's Endoscopy Workshop, Therapeutic Endoscopy: Building on Basics.
