## Message

It gives me great pleasure to welcome esteemed faculty and all delegates to Endoscopy 2022!

The annual endoscopy workshop, organised by the Universiti Malaya in collaboration with the Malaysian Society of Gastroenterology and Hepatology, has been a proud tradition of this institution for the past 30 years.

This year is of great significance as we transition from the pandemic to the endemic phase of COVID-19. The pandemic, while enabling virtual platforms for seamless information-sharing, had robbed us of the opportunity to conduct physical conferences. Hence, the time has come to embark on physical conferences and workshops while adhering to current SOP. I am very glad and pleased that UMMC has decided to continue organising Endoscopy Workshop in full physical form while embracing the “new norm”.

I applaud the organisers of this workshop, led by Associate Professor Dr Ho Shiaw Hooi, for another successful workshop that has put together a stellar line-up of local and international faculties who include Professor Dr Philip Chiu Wai Yan from Hong Kong, China; Associate Professor Dr Pradermchai Kongkam from Bangkok, Thailand; Professor Dr Rajvinder Singh from Adelaide, Australia; Associate Professor Dr Christopher Khor Jen Lock, and Assistant Professor Dr Bhavesh Doshi from Singapore.

I would like to end with a congratulatory note again to the Endoscopy Unit for all its achievement and hard work to make this a successful workshop.

## Message

It is my great pleasure to bid a warm welcome to all delegates and esteemed faculty of the Endoscopy 2022. This workshop has been a proud tradition of Universiti Malaya since 1993, and is still going strong, thanks to the harmonious collaboration between its Faculty of Medicine and Medical Centre. The Endoscopy Workshop is in keeping with Universiti Malaya's vision of impacting the world, by pushing the boundaries of knowledge and nurturing future leaders. The theme for this year's workshop, "AI in GI Endoscopy - The Future is Here", reflects that knowledge is ever evolving, driving continual advancement in the medical field.

The faculty for this year comprises a stellar group of endoscopists, each of whom heads a successful and world-renowned endoscopy centre. They are Professor Dr Philip Chiu Wai Yan from Hong Kong, China; Associate Professor Dr Pradermchai Kongkam from Bangkok, Thailand; Professor Dr Rajvinder Singh from Adelaide, Australia; Associate Professor Dr Christopher Khor Jen Lock and Assistant Professor Dr Bhavesh Doshi, Singapore. I am sure we will gain much from their experience.

Congratulations to the course director, Associate Professor Dr Ho Shiao Hooi, and the President of the Malaysian Society of Gastroenterology and Hepatology, Professor Dr Lee Yeong Yeh, for yet another successful Endoscopy Workshop.

## Message

It gives me great pleasure to welcome all delegates and esteemed Faculty of Endoscopy 2022. After a hiatus of three years, we are glad to host the annual Endoscopy Workshop in collaboration with the Malaysian Society of Gastroenterology and Hepatology, in full physical form.

As a premier medical centre in Malaysia, University Malaya Medical Centre is committed to support top-class educational events such as this. I hope that the workshop will also benefit the centre in terms of introducing new developments in the field of endoscopy.

I wish to congratulate Associate Professor Dr Ho Shiao Hooi, Professor Dr Lee Yeong Yeh and all members of the organising committee for a successful workshop. Also, I would like to extend a warm welcome to Professor Dr Philip Chiu Wai Yan from Hong Kong, China; Associate Professor Dr Pradermchai Kongkam from Bangkok, Thailand; Professor Dr Rajvinder Singh from Adelaide, Australia; Associate Professor Dr Christopher Khor Jen Lock and Assistant Professor Dr Bhavesh Doshi from Singapore.

Wishing all of you a fruitful and enjoyable workshop.

I am extremely delighted to welcome everyone to Endoscopy 2022, 3<sup>rd</sup> & 4<sup>th</sup> June 2022, at Menara Selatan, University Malaya Medical Centre which is at the same venue as previously but held physically for the first time since the pandemic. The theme is 'AI in GI Endoscopy - The Future is Here'; albeit shorter programme days but the content has remained excellent. There is no doubt the participants will greatly benefit from the two days of a highly educational workshop.

The programme will kickstart on 3<sup>rd</sup> June 2022 with the GIA course, EUS course (in collaboration with the Asian EUS Group), ERCP course (in collaboration with the Asian-Pacific Society for Digestive Endoscopy (ASPDE)) and the Young GI consultant forum. The main workshop will be held on 4<sup>th</sup> June, including lectures, live demonstrations and, of course, the 'Malaysia Boleh' best endoscopy video competition. A must not missed talk is the Distinguished Endoscopy Lecture delivered this year by Professor Dr Philip Chiu Wai Yan from Hong Kong. He is well-known in the field of AI and robotics in endoscopy and has been invited to speak for many occasions on our shore. The invited international faculty includes Professor Dr Rajvinder Singh from Adelaide, Australia; Associate Professor Dr Pradermchai Kongkam from Bangkok, Thailand and Associate Professor Dr Christopher Khor Jen Lock and Assistant Professor Dr Bhavesh Doshi from Singapore.

The programme will not be possible without the support of the biomedical industry partners; do spend some time visiting the trade exhibition. Last but not least, I would like to congratulate the organising team behind Endoscopy 2022, especially the course director, Associate Professor Dr George Ho Shiaw Hooi.

A warm welcome to distinguished guests, esteemed faculty members and delegates!

I am honoured to welcome all of you to the 30<sup>th</sup> edition of the Universiti Malaya's Endoscopy Workshop. This workshop has been a proud tradition of Universiti Malaya since 1993 which was inaugurated by Emeritus Professor Dato' Dr Goh Khean Lee. This year's workshop marks a significant milestone as it transitions back to the full physical form from the virtual programme, which was the nature of the workshop conducted for the past two years due to the COVID-19 pandemic.

The theme for this year is "AI in GI Endoscopy - The Future is Here". Just as how the pandemic has accelerated the adaptation of pragmatic solutions to enable the progression of mankind, the theme for this year echoes a similar sentiment. The field of endoscopy is rapidly expanding and one aspect that is gaining traction is Artificial Intelligence (AI). Deep machine learning through convolutional neural network forms the basis of such AI. Integration of this technology in endoscopy will not only aid in the detection and management of certain gastrointestinal disorders but will also benefit in terms of optimization of resources and time management.

Our faculty this year comprises distinguished endoscopists who have headed and still steering successful world-renowned endoscopy centres. They are Professor Dr Philip Chiu Wai Yan from Hong Kong, China; Associate Professor Dr Pradermchai Kongkam from Bangkok, Thailand; Professor Dr Rajvinder Singh from Adelaide, Australia; Associate Professor Dr Christopher Khor Jen Lock, and Assistant Professor Dr Bhavesh Doshi from Singapore. I am confident that the skills that will be displayed and the knowledge that will be imparted to us will further enrich our experience.

I would like to extend my appreciation to Professor Dr Lee Yeong Yeh, MSGH President, and Professor Dr April Camilla Roslani, Dean of Faculty of Medicine, UM, and Professor Dr Nazirah Hasnan, Director of UMMC, for their continuous support to ensure this workshop runs seamlessly. I take this opportunity to thank all the Organising Committee members for their tireless effort to make this workshop successful. Last but not least, I would like to thank the sponsors for their support for this event.

## Objectives and Format of Workshop

This annual Endoscopy Workshop emphasizes on practical tips and latest developments in the field of diagnostic and therapeutic endoscopy: technique, indications, limitations and pitfalls. In particular in this year's workshop, we will be introducing several new artificial intelligence (AI) systems which aid in the detection of GI lesions. We will also be showcasing several advanced endoscopic procedures to acquaint our participants with the recent development in therapeutic endoscopy. The pre-congress workshop serves to provide hands-on training in basic EUS & ERCP. The Young GI Consultant Forum, on the other hand, discusses various topics of interest to the budding young GI consultants which are relevant in their career advancement. The GI Assistant (GIA) course serves as a platform for the GIA to update their knowledge and see for themselves first-hand the various developments in this field. It also serves as an official meeting and gathering for the MSGNMA chapter.

Procedures will include AI assistance in GI endoscopy, image-enhanced endoscopy in diagnostic and therapeutic procedures, advanced resection techniques in both upper and lower GI tracts, peroral endoscopic myotomy, diagnostic and therapeutic endoscopic ultrasound (EUS), EUS-guided biliary drainage, endoscopic retrograde cholangiopancreatography, etc.

## Curriculum Vitae of Faculty

**Bhavesh Doshi** Singapore

Bhavesh Kishor Doshi is Assistant Professor of Medicine, Senior Consultant Gastroenterologist and Director of Endoscopy Training in the National University Hospital, Singapore. He has numerous peer-reviewed publications, and his main interest is in advance endoscopy. He is currently Director of Singapore Hands-on Live Endoscopy Course (SHOLEC).

**Christopher Khor Jen Lock** Singapore

Christopher Khor Jen-Lock is a Senior Consultant Gastroenterologist and Director of Endoscopy in the Singapore General Hospital. He is an Adjunct Associate Professor with the Duke-NUS Medical School. He is an editorial board member of Endoscopic Ultrasound and reviewer for Journal of Gastroenterology & Hepatology, Digestive Diseases & Sciences, Clinical Gastroenterology and Hepatology and United European Gastroenterology. He has more than 50 peer-reviewed papers to his name. He has a keen interest in endoscopic quality and education, and in promoting cross-border co-operation among the regional endoscopy community. He is currently the co-chairs of an Asia-Pacific group focused on EUS education. His regional work includes regular faculty invitations to demonstrate and teach endoscopy.

**Philip Chiu Wai Yan** Hong Kong, China

Philip Chiu is a Professor at the Department of Surgery and Director of Chinese University of Hong Kong Jockey Club Minimally Invasive Surgical Skill Center and Assistant Dean of the Faculty of Medicine, The Chinese University of Hong Kong. He is currently co-editor of Endoscopy and subject editor for Surgical Endoscopy. He has published more than 370 peer-reviewed manuscripts and six book chapters. His research interests include esophageal cancer management, minimally invasive and robotic esophagectomy, novel endoscopic technologies for diagnosis of early GI cancers, endoscopic surgery as well as robotics for endoluminal surgery.

## Curriculum Vitae of Faculty

### **Pradermchai Kongkam** Bangkok, Thailand

Pradermchai Kongkam is an Associate Professor of Medicine and Chief of Pancreas Research Unit in Chulalongkorn University. He is Assistant Director in the King Chulalongkorn Memorial Hospital and Director of Excellence Center for Gastrointestinal Endoscopy in the King Chulalongkorn Memorial Hospital. He is an editorial board member of Endoscopic Ultrasound Journal and has published more than 80 peer-reviewed papers. He is a Committee Member of the American Society for Gastrointestinal Endoscopy (ASGE) International. He is Director of Advanced Endoscopy Fellowship Training Programme and has trained many young doctors from various part of the world for many years.

### **Rajvinder Singh** Adelaide, Australia

Rajvinder Singh is Professor of Medicine with the University of Adelaide and the Director of Gastroenterology Unit at the Lyell McEwin & Modbury Hospitals, South Australia. He is an editorial board member of Endoscopy and World Journal of Artificial Intelligence in Gastroenterology. He was the past editorial board member of Digestive Endoscopy (Associate Editor), Endoscopy International Open (Co-Editor), World Journal of Gastroenterology and World Journal of Gastrointestinal Endoscopy. He has authored/co-authored more than 100 publications and book chapters on advanced endoscopic mucosal imaging and resection techniques. He has been involved in various committees drafting national and international guidelines on this subject. He is presently a member of the Standards of Practice and Publications Committee with the World Endoscopy Organisation (WEO). He was the past international committee member of the American Society of Gastrointestinal Endoscopy (ASGE). He is frequently invited to conduct basic and advanced endoscopy workshops internationally.

## Universiti Malaya and Malaysian Society of Gastroenterology and Hepatology Distinguished Lecturer 2022

### Professor Dr Philip Chiu Wai Yan

(The Chinese University of Hong Kong, Hong Kong, China)

*Citation by Professor Dr Sanjiv Mahadeva*

*(Professor of Medicine and Consultant Gastroenterologist, Universiti Malaya)*

Professor Dr Philip Chiu Wai Yan is an outstanding Academic Surgeon from the Chinese University of Hong Kong who is not short of leadership positions. He is currently Professor and Chief of the Division of Upper GI and Metabolic Surgery in the Department of Surgery; the Director of the Multi-Scale Medical Robotics Center; the Director of the Endoscopy Center of Institute of Digestive Diseases; the Director of the CUHK Chow Yuk Ho Technology Center for Innovative Medicine and the Associate Dean (External Affairs) of Faculty of Medicine, Chinese University of Hong Kong (CUHK) and these are just positions within his place of employment! Out of the Chinese University of Hong Kong, he is the President of the Endoscopic and Laparoscopic Surgeons of Asia (ELSA); Secretary of the Asian Novel Bio-Imaging & Intervention Group (ANBIG); Chairman of the Surgical

Endoscopy Committee of the World Endoscopy Organisation (WEO); Visiting Professor for the National University of Singapore; Adjunct Professor for the Monash University Australia - just to name a few!

Professor Chiu graduated from the Faculty of Medicine, Chinese University of Hong Kong in 1994 and keenly pursued his career of Academic Surgery, eventually receiving his Doctorate of Medicine from the CUHK in 2009. He is recognized for many "Firsts" in the field of Endoscopic Surgery. He was the first to perform endoscopic submucosal dissection (ESD) for the treatment of early GI cancers in Hong Kong in 2004. In 2010, he performed the first Per-oral Endoscopic Myotomy (POEM) in Hong Kong. In 2011, he was part of the team which pioneered the world's first robotic gastric ESD, followed by the world's first robotic colorectal ESD in 2020.

It is not surprising then that Professor Chiu has been bestowed with numerous awards for his outstanding achievements, including best of DDW 2011, first prize of ASGE world cup of endoscopy 2012, Asia Pacific Digestive Week JGHF Emerging Leader in 2016, and a Gold Medal with Congratulations from Jury, 47<sup>th</sup> International Exhibitions of Inventions of Geneva in 2019.

Professor Chiu's research interests include esophageal cancer management, minimally invasive and robotic esophagectomy, novel endoscopic technologies for diagnosis of early GI cancers, endoscopic surgery as well as robotics for endoluminal surgery. He has published more than 400 peer reviewed manuscripts and 6 book chapters. He is currently co-editor of Endoscopy and subject editor for Surgical Endoscopy.

One would think that someone who has achieved as much as Professor Dr Philip Chiu in the field of Surgery would have little time for non-medical pursuits. However, he is also an avid Chinese art painter, having studied Lingnan art since 1984. His painting titled "Loguat" was selected as one of the prize-winning artworks for the China's 9th National Art Exhibition in 1999. Professor Chiu held his first solo art exhibition at the Hong Kong Central Library in 2009 and in 2011 he held a mother-son art exhibition with demonstration of more than 60 pieces of artwork. Professor Chiu has kindly allowed some of his artwork to be featured in our Endoscopy 2022 Souvenir Programme.

It is an honour and privilege to have the remarkable and amazingly talented Professor Dr Philip Chiu Wai Yan as the Universiti Malaya and the Malaysian Society of Gastroenterology and Hepatology Distinguished Lecturer for Endoscopy 2022.

### Kusai Alias

*Citation by Mohd Zulkifli Mohd Zain*

Mr Kusai Bin Alias, or known as Hj Kusai, has been in Endoscopy services for 38 years since 1997. He obtained his Diploma in Medical Laboratory Technology from Universiti Kebangsaan Malaysia. He was posted to General Surgery Department, UKM from 1982 to June 1997.

His interest and passion in the Endoscopy field has paved the way for him to be promoted as the UKM Endoscopy Manager from July 1997 to 2020; back then, there were not any trained nurses or assistant medical officers available to lead the endoscopy unit. He was actively involved in numerous research activities in UKM, working alongside with both medical and surgical specialists. With his extensive experience in the Endoscopy field, he was invited as a speaker for events organised by MOH, private hospitals and military hospital. In addition, he also had the opportunity to be trained in handling endoscope breakdown in Tokyo, Japan in 1998.

As a MSGNMA committee member, he has been involved in training programmes which open up more learning opportunities for GIA in Malaysia. He had led the Society as President from 2007 to 2008. He is currently attached with Vitramed Asia as senior regional manager.

### Malaiyarsi Sellamuthu

*Citation by Suzilawati Tulot*

Sr Malaiyarsi Sellamuthu joined the Endoscopy Unit of University Malaya Medical Centre in April 2004. She was a critical care nurse prior to joining the Endoscopy Unit. She obtained her Critical Care Nursing in 1995 and Advance Diploma in Nursing Administration at Universiti Malaya in 2001. She had obtained her Post Basic Endoscopy Nursing Training Certificate in 2010 conducted by the Ministry of Health Malaysia.

She is a hardworking, diligent and humble person, highly skilled in endoscopy nursing. In 2009 she was promoted as a Sister and was transferred out of the unit. However she returned to Endoscopy Unit in 2014 as sister in charge of the unit until she retired at the end of May 2016. She and her nurses had contributed greatly to the success of various international endoscopy workshops and GIA training courses organised by UMMC Endoscopy Unit headed by Emeritus Professor Dato' Dr Goh Khean Lee. She was actively involved in MSGNMA activities as a committee member. Currently she is the Unit Manager of Endoscopy and Day Care Centre in MSU Medical Centre in Shah Alam, Selangor.

Ms Rosalin Maria Purificacion Sulit is a retired nursing tutor with 29 years of experience in teaching and 10 years in the clinical area. She holds a Bachelor's degree in Health Sciences (Hons) (UNISEL) and Masters' degree in Management (OUM). She was awarded a study grant to undergo further training in endoscopy in the United Kingdom in 2007 and, thereafter, started the post-basic endoscopy nursing training programme in Malaysia in 2009. She was part of the team that set up the first Endoscopy Nursing curriculum and the standard operating procedures for Endoscopy in the Ministry of Health Malaysia.

She held the position of Head of Post-Basic and Advanced Diploma and Head of Quality and Examination unit. She was posted to Institut Latihan Kementerian Kesihatan Malaysia, Pasir Mas, Kelantan as the College Director in 2016 before being transferred back to Kota Kinabalu. She retired in 2019. She is a committee member of MSGNMA and is still committed towards uplifting endoscopy nursing in Malaysia.
